Our Commitment To You

As an industry-leading surgical repair company, our goal is to provide you with many years of troublefree service from your surgical equipment. We pride ourselves in delivering an unparalleled level of quality and service.

With factory-trained technicians working in our state of the art laboratories, you can rest assured that we will get your equipment working again quickly and reliably.

As part of our quality management system, every piece of equipment must pass our quality testing and performance process before it is returned. This is an internal quality control standard that ensures quality repairs.

Thank you for your business. We look forward to working with you.

TEE Probe Repair

The Surgical Equipment People can diagnose your current probe and make needed repairs for a fraction of the cost of acquiring a new probe. Every probe we receive for repair undergoes a complete diagnostic check to identify current and future issues. This information is then sent to you so that you can make an informed decision regarding the maintenance of your equipment.
